

## Clinician to Clinician Consult

When a primary care provider consults with a specialist about a patient electronically instead of referring the patient for a face-to-face visit.

## Why choose ConferMED?

- 

**Savings**

  - Average savings of \$82 per patient, per month than those sent to a face-to-face visit
  - Reduces ED visits by one-third
  - Reduces unnecessary face-to-face specialty visits by 30–40%

---

- 

**Patient Experience**

  - Improves health outcomes through timely access to care
  - Reduces barriers to care—no waiting for appointments, time off from work, transportation or child care needs
  - No out-of-pocket expense (to the patient)

---

- 

**PCP Experience**

  - Manage and keep patients in the primary care practice
  - Rapid communication with eConsult specialists, often receive consult within 24 hours
  - Resolve specialty access issues by providing eConsults from a network of over 40 specialties and 150 specialists

---

- 

**Specialists**

  - Enhance caseload by increasing number of meaningful procedures by freeing up space on the schedule
  - Provide eConsults to primary care physicians within your network
  - Assist in eliminating network leakage

---

- 

**Seamless Transition**

  - Works within your system to keep from disrupting your existing workflow
  - Use your existing specialty network within ConferMED
  - PHI is included in the process with full HIPAA compliance

---

- 

**Superior Support**

  - Full implementation plan and assigned ConferMED Account Manager to support your practice sites
  - Data analytic dashboard for performance management
