

COVID-19 | Test to Treat Equity ECHO

Introductory Session

Wednesday, December 14, 2022

12:00 - 1:00 pm PT

Webinar: Introduction to Test to Treat/SARS-CoV-2 Basics: How to get through December with rising COVID-19 case rates?

Christian Ramers, MD, MPH, FIDSA, AAHIVS
Family Health Centers of San Diego

As the COVID-19 pandemic shifts from crisis-mode to 'normal operations' and with wide availability of rapid antigen testing and therapeutics, the COVID-19 Test to Treat Equity ECHO aims to assist clinics and community-based sites in implementation of their own Test to Treat programs. This program will consist of:

CA Statewide Webinar – 2nd Wednesday of each month, 12-1pm PT

A monthly webinar with presentations by expert faculty and a moderated Q&A panel discussion with subject matter experts

[Register for the webinar here](#)

Regional NorCal/SoCal Office Hours ECHO Sessions

A more intimate, small group Q&A session with hands-on clinical discussion and technical support with multi-disciplinary expert panelists

Northern California Test to Treat ECHO – 1st Wednesday of each month, 12-1pm PT
Registration for the Northern CA sessions coming soon

Southern California Test to Treat ECHO – 3rd Wednesday of each month, 12-1pm PT
Registration for the Southern CA sessions coming soon

With an equity lens, this program will enable test to treat programs to operate within affected communities to reduce health disparities and increase access to life-saving diagnosis and early treatment for COVID-19.

Upcoming Webinar Topics:

- 1/11/23 - Outpatient Therapeutics for COVID-19
- 2/8/23 - SARS-CoV-2 Testing
- 3/8/23 - Natural History and Pathophysiology of COVID-19
- 4/12/23 - Practical Aspects & Operational Details
- 5/10/23 - Overview of Post-COVID Conditions
